

Important Information Regarding The Removal of the Travel Services Insolvency Cover for Alitalia

Issued: 4 April 2008

Applies for "Options" policy only

PLEASE NOTE: This notice is not intended to suggest or imply that Alitalia is, or is likely to become insolvent.

The following advice applies to policies issued on or after the 04/04/2008.

Please be advised that there will be no cover provided under the Section of the Options Policy headed Travel Services Provider Insolvency for policies issued on or after 04/04/2008.

Please advise all relevant prospective Cover-More policyholders of the above, where you believe they either have or may purchase Alitalia tickets.

This action follows recent information provided by our underwriter Vero Insurance Limited in respect of the breakdown of take-over talks between Air France/KLM Group and Alitalia. Italian finance minister Tommaso Padoa-Schioppa has previously stated that Alitalia would have to seek protection from creditors if this take-over bid failed.

This advice will be updated if new information comes to hand.
